Continuation

One-inch check line. Trim outside the borders; keep cards together.

Collect readable recipes

One optional contribution per person is enough. Keep this tracker private; it is not a food-safety or permission certificate.

A short request you can adapt

If you would like to share a recipe for the couple, bring a 4 x 6 inch card or send your own written recipe by [date]. Include its yield, ingredients, complete method and your name. Attach continuation cards rather than squeezing the writing. Participation is optional.

For a source-based recipe, use your own wording and note the source or agreed permission. Ask before copying published text. The editor is a format tool; contributors and the receiving family review recipe details.

Contributor / card ID	Received	Reviewed / follow-up	Cards / source note

Before handing over the collection

Keep the full method, quantities and source note together. Resolve unclear handwriting or missing steps with the contributor. Number continuation cards and check the box or sleeve against a real trimmed sample. This is a free original card set, not part of an existing paid bundle.

Open the free HTML editor from the guide for typed text and project JSON. Use A4 or Letter, portrait, 100% scale, no browser headers/footers and no margins. No physical printer or card-box fit has been tested.
